

Group Insurance

Occupation Classification Guide

Below are the definitions of each of the occupational classifications which can affect the cost of your insurance.

- **Professional (Class 1):** Occupations that involve no manual duties (e.g. lawyer, accountant). Usually those with a tertiary qualification or registration by a professional body (they must be using these qualifications in their occupation). Includes well-established senior executives (those with 10 or more years in that role) with incomes in excess of \$150,000 p.a., without tertiary qualifications.
- **White Collar (Class 2):** Occupations that involve no manual work (e.g. administrator, book-keeper, computer operator), clerical, administration and managerial occupations involving office and travel duties. Includes occupations with tertiary qualifications that involve very light physical work (e.g. osteopath, physiotherapist).
- **Light Blue Collar (Class 3):** Occupations that involve light manual work, such as certain qualified tradespeople (e.g. electrician), business owners in non-hazardous industries involved in light manual work (e.g. coffee shop owner) and those who may supervise medium blue collar workers (no more than 25% of their work time). Includes occupations that are not limited to office, where travel is an essential part of the job (e.g. field surveyor).
- **Medium Blue Collar (Class 4):** Occupations that involve manual work, such as qualified skilled tradespeople in non-hazardous industries wholly involved in manual duties (e.g. carpenter, plumber, plasterer, mechanic). For those that fall under this occupation classification, income protection is limited to 2 year or 5 year benefit periods only.
- **Heavy Blue Collar (Class 5):** Occupations that involve heavy manual work, such as heavy manual workers in non-hazardous industry performing higher risk occupations (e.g. interstate bus driver, warehouse worker, labourer, bricklayer, house removalist). For those that fall under this occupation classification, income protection is limited to 2 year or 5 year benefit periods only.
- **Hazardous (Class H):** Occupations that includes unskilled workers, those involved in hazardous or very heavy manual work and/or presenting particular underwriting difficulties (e.g. professional divers, interstate truck drivers, linesmen working over 10 metres). Should you wish to apply for voluntary cover and are offered cover, you will be assigned the Class 5 classification but if you wish to transfer insurance, you will not be eligible due to your occupation.

Occupation Classification

The following table is a list of occupations and the corresponding occupational classification.

Please note that:

- 'H' means 'Hazardous'; and
- 'D' means 'Decline Cover', i.e. cover is not available either on the basis of excessive risk or the type of cover is not available.

Occupations	Death	TPD	IP
Abalone Diver	5	H	D
